

Whitehorse Centre Redevelopment

The Next Act!

Whitehorse City Council is transforming the ageing Whitehorse Centre into a highly accessible, flexible and contemporary venue that will meet the diverse and changing needs of our community, users and patrons. The centre will provide an expanded array of performing arts, functions and festival opportunities for generations to come.

We'll preserve what people most value about the current centre – the warm atmosphere, intimate experience and exceptional customer service – while providing many new opportunities for creativity, connection and celebration through the performing arts and family festivals. The new centre is expected to open in late 2023.

The redevelopment delivers:

- 600-seat auditorium with larger stage and modern backstage area
- 200-seat studio theatre enabling smaller scale works
- multipurpose rehearsal/dance studio
- a greatly expanded range of shows, functions and events
- improved soundshell capability for community festival season
- multipurpose function room
- significantly increased community usage (an estimated 80% of usage will come from community groups and community-based Council programs)
- multi-deck car park to improve access to the entire civic precinct.

The Whitehorse Centre will continue to operate throughout 2019.
